Section II Terms

U.S. Army Medical Center (MEDCEN), medical department activity (MEDDAC), and dental activity (DENTAC). The terms MEDCEN, MEDDAC, and DENTAC, as defined in AR 40-1, refer to the tables of distribution and allowances (TDAs) organization itself.

Regional Medical Command (RMC) and Regional Dental Command (RDC). The continental United States (CONUS) and selected overseas areas are subdivided into geographical service support areas (see figure 1). Each is composed of a selected grouping of states or overseas areas, that are titled RMC and RDC. Each RMC and RDC are subdivided into health service areas (HSA), that are the geographical areas for which the respective MEDCEN, MEDDAC, DENTAC, and/or Dental Clinic commanders are responsible. The RMC and RDC commanders are delegated command and control over the MEDCEN, MEDDAC, and DENTAC commander, respectively, located within their respective RMC and RDC. The RMC and RDC commander will provide intermediate level of supervision over, and continuous evaluation of, the delivery and quality of health and dental care provided eligible beneficiaries throughout the RMC and RDC. Other RMC and RDC commander duties are as described in MEDCOM Regulation 10-1, chapter 1.

Health Service Area (HSA). A HSA includes both medical and dental services in a geographical area which a single MEDCEN, MEDDAC, DENTAC, and dental clinic activity has responsibility for providing designated health care to eligible beneficiaries and medical logistical support. HSAs will be titled after the name of the installation which the MEDCEN, MEDDAC, DENTAC, or Dental Clinic activity is located. For an example, the HSA assigned to Brooke Army Medical Center, Fort Sam Houston, Texas is Fort Sam Houston Health Service Area; the HSA assigned to MEDDAC, Fort Stewart, Georgia is Fort Stewart Health Service Area.
